Transit Trainings Introduce SunRail to Employees

SunRail's Business Development team has worked with many companies along the corridor, such as Xenia Hotels, Highwoods and FBC Mortgage, to inform employees about SunRail and alternative commuting with presentations and Transit Trainings.

Transit Trainings allow employees to experience SunRail on board and learn how to use the system first-hand. Over 90% of SunRail's transit training participants are first-time riders on the train.

"New riders are vital to the growth of SunRail in Central Florida and we love to host them onboard to learn how to use our system and take a ride on our beautiful trains," said SunRail's Executive Director/CEO Nicola Liquori.
